Subject: Microsoft Settlement

To whom it may concern,

I am shocked and appalled at the laxity of this proposed settlement. As a former U.S. Marine and Gulf War veteran I have friends who were wounded in combat, and even died on foreign soil fighting for what this country stands for. If they saw that *this* insulting mockery of (alleged) justice was what they fought and died for, I'd hate to see how they would feel. It's a joke and a slap in the face to all law-abiding citizens to see this megalithic juggernaut get away with the crime of the century just because it has the deepest pockets, the most market power, and the most 'juice on the beltway'. I know that it is a matter fact that large companies, like Microsoft, contribute money to both sides of the political fence as a way of hedging their bets and ultimately getting their fat pulled from the fire when the 'merde' hits this 'ventilateur', but I am urging you not to let Microsoft turn our justice system into 'the best that money can buy'.
